Dear Joe:

Just a line in haste . I just left the phone, and true to my promise(at last) I came directly to the desk to write you.

I will make every effort to get to New York and see you next week. Will let you know when to expect me.

I am very happy about the POLO GROUNDS situation, as you know. A league can never be a league until each team has a home grounds. Maybe we are at last coming to life. I do hope Pompey does not change his mind. I dont think he will.

Will see you soon.

Very Truly Yours
